TIDE POD CHALLENGE

Consumer Reports reported that between the Tide pods' introduction in 2012 through early 2017, eight deaths had been reported due to the ingestion of laundry detergent pods, with six of the eight deaths resulting from a pod manufactured by P&G.

FIRE CHALLENGE

Fire challenge is an activity which refers to the application of flammable liquids to one's body and then setting the liquids aflame, while being video recorded.

SPONSOR OF CINNAMON CHALLENGE

The challenge is difficult and carries substantial health risks because the cinnamon coats and dries the mouth and throat, resulting in coughing, gagging, vomiting and inhaling of cinnamon, leading to throat irritation, breathing difficulties, and risk of pneumonia[1] or a collapsed lung.

KNIFE PENNER CHALLENGE

The idea is they're sucking and creating a vacuum, and that vacuum would result in swelling because it's a trauma to the lips, breaking of blood vessels, lacerations, cutting of the skin that requires stitches in some cases. And that can leave marks that include pigmentation; scarring.

WHALE CHALLENGE

The game starts out as between the administrator and the participant, with each of the administrator will see up a difficult task for the participant to do. The difficulty starts off fairly easy—listening to certain genres of music to watching horror-style movies. As the days go on, the tasks grow increasingly difficult such as staying up until all hours of the night to mutilating the skin along with carving a "whale" symbol onto their arm. The final task and end to the game is the person committing suicide.

GHOST PEPPER CHALLENGE

The choking game refers to intentionally cutting off oxygen to the brain with the goal of inducing temporary loss of consciousness and euphoria.

BOERHAVE CHALLENGE

In September 2016, five children from a school in West Milton, Ohio were hospitalized after eating ghost peppers as part of a challenge.[2] There is also an account of a 47-year-old man who was sent to the Emergency Room after consuming a hamburger topped with Ghost Pepper puree. Later reports revealed that his esophagus ruptured due to Boerhaave syndrome, and not the intensity of the pepper.
