

What will we do when there is nothing left to protect?

What will we do when there are no more forests?

What will we do without medicine?

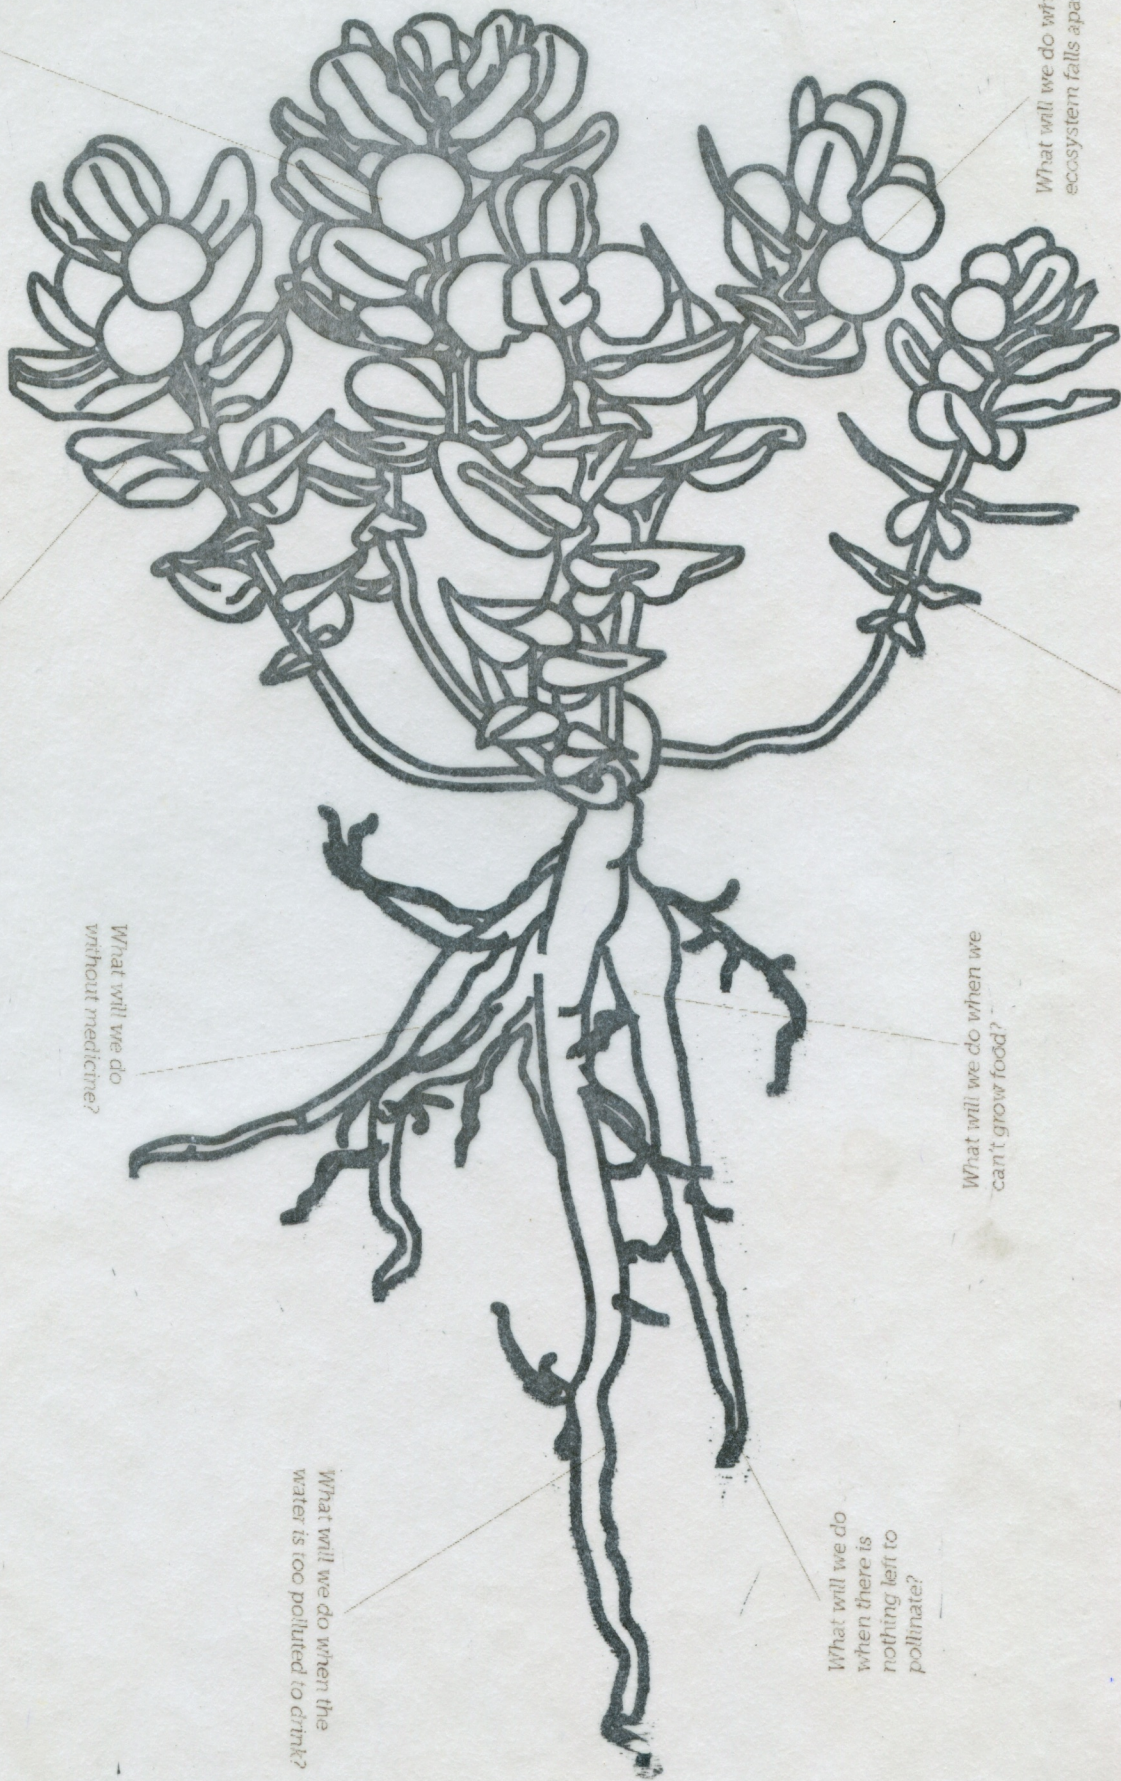

What will we do when the water is too polluted to drink?

What will we do when there is nothing left to pollinate?

What will we do when we can't grow food?

What will we do when the air is too polluted to breathe?

What will we do when the ecosystem falls apart?

It is too beautiful to present  
MUSEUM OF MODERN ART

What will we do when there is  
nothing left to protect?

These are no more forests  
What will we do when

What will we do when there is  
nothing left to protect?

What We Save,  
Saves Us

Plant Me  
Water Me  
Watch Me Grow

What will we do when there is  
nothing left to protect?

It is too beautiful to present  
MUSEUM OF MODERN ART
